

Student name: _____

Examine the slide labeled: **Bone: Ground (Human)**

Look at various regions of the tissue on the slide. Find a location where you can see all of the following structures:

Haversian system(s) = Osteon(s)

Haversian canal(s) = central canal(s)

lamella/lamellae

lacuna/lacunae (*osteocyte lacuna/lacunae*)

canaliculus/canaliculi

Draw the structures listed above (as seen through your microscope) and label them.
